

RIDING A TRAMPA BOARD CAN BE VERY DANGEROUS!

E-Boarding or any type of boarding sport associated with the TRAMPA BOARDS LTD products is inherently dangerous. If Trampa products are misused/used against our guidance, the consequences could result in serious injury or death.

Full body protection is highly recommend, which includes a fully functioning strong/certified helmet, with face guard if possible, wrist, elbow, and knee pads

SAFE RIDING TIPS

1. Never ride near roads, cars or traffic of any kind.
2. Before riding, inspect the terrain for obstacles and remove any potentially hazardous items from your route.
3. Make sure you inspect your board before riding. Ensure everything is tight and functioning correctly before use.
4. Never ride worn out or broken/damaged equipment.
5. Make sure to use the latest VESC-Tool and firmware.
6. Use the VESC-Tool profiles to adjust the max speed and power to your skill level.
7. Don't over estimate yourself, stay on the safe side.

Before using your Trampa board or any Trampa product (such as the Dirt E-Trike), it is essential to familiarise yourself with the following safety guidelines and disclaimers. Trampa Boards is dedicated to providing a safe and enjoyable riding experience, but understanding and adhering to these precautions is crucial to your well-being:

1. Protective Gear:

- Always wear appropriate protective gear, including a helmet, gloves, elbow and knee pads, and closed-toe shoes, when riding your Trampa board. Additional safety gear, such as wrist guards and body armor, is also recommended.

2. Rider Skill Level:

- Trampa boards are designed for riders with intermediate to advanced skills. Do not attempt to use these boards unless you have prior experience with off-road and electric skateboarding. Beginners should start with easier boards and gradually progress to the Trampa board.

3. Terrain Selection:

- Ride only in suitable off-road or all-terrain environments. Avoid steep hills, uneven surfaces, and busy roadways. Ride on terrain that matches your skill

level and the capabilities of your board.

4. Maintenance and Inspections:

- Regularly inspect your Trampa board for any wear and tear, loose bolts, or other issues that might affect its performance. Keep your board in good condition and maintain it according to the manufacturer's recommendations.

5. Battery Safety:

- Charge your board's battery using the provided charger and follow the manufacturer's instructions for proper charging. Avoid overcharging, and do not leave the battery unattended during charging.

6. Weather Conditions:

- Do not ride your Trampa board in wet or slippery conditions, as this can reduce traction and control. Rain, snow, and icy surfaces pose significant risks and should be avoided.

7. Speed and Control:

- Always ride at a safe and controlled speed. Do not exceed your own skill level or the capabilities of the board. Familiarize yourself with the board's braking system and practice emergency stops.

8. Respect Traffic Laws:

- If riding on public roadways, obey all local traffic laws and regulations. Yield to pedestrians, follow speed limits, and be mindful of other road users.

9. Ride Responsibly:

- Do not perform stunts, tricks, or aggressive maneuvers without proper training. Respect the safety of yourself and others while riding your Trampa board.

10. Personal Health:

- Do not ride your Trampa board if you are under the influence of drugs or alcohol, or if you have any medical condition that impairs your ability to operate the board safely.

11. Children and Supervision:

- **Trampa boards are not intended for use by children. If minors are using the board, they should be supervised by an experienced adult at all times.**

12. Assumption of Risk:

- **Riding a Trampa board involves inherent risks. By using the board, you acknowledge and assume these risks, and you are responsible for your own safety. Trampa Boards is committed to promoting rider safety, but it is the responsibility of the rider to follow these guidelines and exercise caution at all times. Failure to do so may result in serious injury or damage to the product. Ride responsibly and enjoy your Trampa board experience to the fullest.**
